

### ⚠ WARNING

1. To avoid electric shock, disconnect power at source prior to installation
2. The installation should be performed by qualified electricians or lighting technicians.
3. Before conducting any installation, maintenance, or removal, disable all power to the luminaries and wait until fixture cools down.
4. DO NOT touch the fixture while it is in service.
5. If there are any problems with the fixture, TURN OFF the power and DO NOT attempt to repair unless you are a qualified technician or the customer service member.

### MOUNTING

1. Securely attach mounting brackets (2) to mounting surface. The WTZ enclosure will engage the mounting brackets at any point along its length, except where there are latches. It is recommended that the dimension between brackets equals about 60% of the enclosure's length.
2. Insert one side of the WTZ Amazon housing into the mounting brackets.
3. Bring opposing side up to the other side of the mounting bracket and press in on the mounting bracket until the mounting bracket clicks into place.
4. Verify that the fixture is fully supported before connecting to a power source.
