

DHB Reflector/Diffuser Installation Instructions

Follow all instructions carefully. Disconnect power before installing the product or servicing it. Failure to do so could result in damage to the fixture and will void your warranty.

Tools required: Philips-head screwdriver.

- Loosen three of the six screws as shown below in Figure 1.

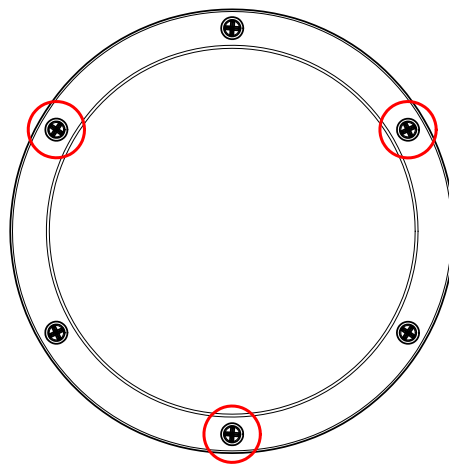

Figure 1

- Place the reflector/diffuser over the three protruding screws as shown in Figure 2.

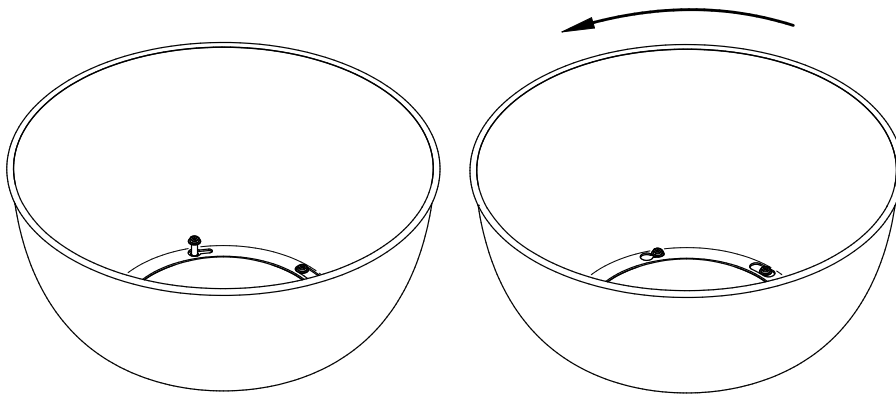

Figure 2

Figure 3

- Turn the reflector/diffuser counter-clockwise and fasten the screws to lock it in place as shown in Figure 3.
