FEATURES

- Shallow, Lightweight, 3-Piece Versatile Volumetric Selectable Troffer Retrofit Kit allowing for quick, easy and simple installation
- Shallow Depths of 2.1" for VTK22 & VTK24, 2.9" for VTK14. This allows for installation into a wide array of ceiling applications
- Available in 1x4, 2x2, & 2x4 Sizes with a Lumen Range from 2,000 to 5,000 Lumens
- CCT and Lumen Field Selectable, with optional factory pre-set selections for customized ambiance and application
- High Efficacy (Up to 165 LPW) provides lower operational costs compared to traditional fluorescent fixtures
- Advanced Control Options Available, Enables flexible lighting control and additional energy savings
- Buy American Act (BAA) option available

SUITABLE APPLICATIONS

- Education
- Healthcare
- Offices
- Grocery Store
- Retail
- Storage Facility
- Conference Rooms

CERTIFICATIONS

SPECIFICATIONS

CONSTRUCTION

A Post Painted Sleek Steel housing body for rigidity, durability, and ease of installation. Designed for maximum rigidity and durability. One-piece unit with two universal mounting brackets for quick and easy installation into grid.

ELECTRICAL

Class 2 LED light engine for high efficacy and long life. Calculated L70 > 100,000 hrs. LED Lumen Maintenance Estimates based on TM-21 projections for the light source at 25°C ambient. Power Factor > 0.90. Standard 120-277 Vac 0-10V dimmable (10%-100%) with optional 1%, Sensor Ready, & Bi-Level Driver options available. Optional emergency battery backups available to meet critical life safety lighting requirements.

TROFFER COMPATIBILITY & INSTALLATION

VTK is designed to fit into most existing parabolic and lensed troffers with a housing depth of 3 1/8" or greater. ILP recommends a test installation prior to ordering project quantities. Contact factory for additional troffer compatibility confirmation. One-piece door frame light engine with two universal mounting brackets for easy installation. See page 3 for step-by-step troffer kit installation instructions.

CONTROLS

Factory installed Advanced sensor options available. Sensor mounts within the body of the fixture. View controls page for more detail (pg.4). Inquire with manufacturer for additional controls options, including customer supplied items.

CERTIFICATIONS

ETL Listed to US and Canadian safety standards. Suitable for damp locations. Buy American Act (BAA) Compliant Option Available. Title24 Compliant with sensor option; see local ordinance for qualification information. DLC (DesignLights Consortium) Premium Qualified. Please refer to the DLC Qualified Products List at www.Designlights.org/QPL to confirm specific product qualifications.

WARRANTY

5 Year Warranty Standard; 10 Year Warranty Optional ([Terms and Conditions apply](#)).

FOOTNOTES

¹Must be used with SR Sensor Ready Driver

²Not compatible with the Lumen selectable and CCT selectable functions. Must select dedicated Lumen and CCT options.

³Requires Bluetooth enabled device for programming (provided by others)

⁴Standard 120-277V Driver Dimmable Down to 10%

⁵Contact factory for more details

⁶Minimum ambient temperature of 32°F

⁷Must be ordered with a dedicated lumen output

⁸Will not work with the stepdowns or sensors

¹LED Chips are frequently updated therefore values are nominal

³ Ambient Temperature range is -4°F - 104°F for all models

² Electrical data at 25°C (77°F) 120V. Actual wattage may differ by +/-10%.

INSTALLATION INSTRUCTIONS

STEP 1

Shut off or disconnect power to the fixture.

STEP 3

Gently lift the original housing and insert the brackets between the housing and the T-grid. Allow the housing to rest on the brackets, securing them in place. Optional tether included on the mounting brackets to secure the kit to the housing.

STEP 5

Connect the VTK to AC power and ground.

STEP 2

Remove existing fluorescent lamps and components, then disconnect existing connections to the fluorescent ballast.

STEP 4

Hang the VTK body by hooking the T-hinges into the respective slots in the bracket.

STEP 6

Rotate the VTK body up into the fixture and close the latches. Turn on or reconnect power to the fixture to complete the installation.

ADVANCED CONTROLS OPTIONS

NUROAir by ILLUMUS

NURO

NUROAir Integrated Bluetooth Sensor is the optimal groupable controls lighting solution. With main features such as PIR Motion Sensing, Occupancy/Vacancy, Bi-Level Dimming and Daylight Harvesting - this flexibility makes the NUROAir Integrated Sensor ideal for tailoring lighting to specific space needs, optimizing both ambiance and efficiency. The NUROAir App, available for download on iOS and Google Play Store, offers a user-friendly interface for automatic or manual customization of your space. Through the app, users can configure sensor settings such as the Light Output, CCT, Hold Time, Standby Time/Level, High/Low End Trim, Background Light Level, Set Schedules, and Control Lighting Groups or Zones, all from a mobile or tablet device. Manual control is also available with a range of compatible wireless & wired wall switch options.

NUROAir Bluetooth Controls

EASYSense

ESMC

EasySense sensor combines occupancy sensing, daylight harvesting and institutional tuning in one compact solution. This is an ideal control for any Commercial application. Each device allows you to turn on/off occupancy and/or daylight harvesting functions as well as set the full light output, background light level, occupancy prolong time, occupancy grace fading time & occupancy time out/ hold time. It can be easily controlled via the Philips MasterConnect Bluetooth App on a mobile phone.

ESMC/WWS/DR

Optional Wireless / Batteryless Dual Rocker Wall Switch. Up to 100ft range. Functions include: On/Off, dimming and setting of (2) scenes for full room control.

Specifications:

- Wireless
- ZigBee®
- Batteryless
- 30-100ft Range
- Dual Rocker

Functions:

1. On (Hold to brighten up)
2. Off (Hold to dim down)
3. Scene 1
4. Scene 2

ENLIGHTED

5E/CU/CL

Bundled System with Enlighted 5E sensor (SU-5E-CL), Control Unit (CU-4E-FM) and Cable (CBL-5E-CU4-30N). Fixtures are controlled based on occupancy and ambient light. Includes individual lighting control plus connection to Enlighted Energy Manager. The Energy Manager provides data analysis for all data collected by the Enlighted Smart Sensors for energy, occupancy and environment. Provided with factory installed components only. Enlighted system provided by others. Contact factory for more information.

5E/CU/IOT

Bundled System with Enlighted 5E sensor (SU-5E-IOT), Control Unit (CU-4E-FM) and Cable (CBL-5E-CU4-30N). Fixtures are controlled based on occupancy and ambient light. Includes individual lighting control plus connection to Enlighted Energy Manager. Energy Manager provides data analysis for all data collected by Enlighted Smart Sensors for energy, occupancy & environment. Additionally, the IOT functionality takes the data access and function beyond just lighting to a wide range of applications beyond the standard connected lighting controls. Provided with factory installed components only. Enlighted system provided by others. Contact factory for more information.

LUTRON

VDO

Vive DFCSJ-OEM-OCC integral fixture control sensor with daylight & occupancy. Vive provides intuitive programming allowing for maximum flexibility with wireless communication & sensing as desired. Provided with factory installed components only. Lutron system provided by others. Sensor must be used in conjunction with Pico Switch/Dimmer. Cannot be used in conjunction with mechanical on/off power switch. Contact factory for more information.

AWNRR

Athena wireless node is a radio frequency (RF) device that enables simple, digital control of individual light fixtures in an Athena control system. Enables individual wireless control of each fixture in an Athena control system. Accommodates zone and control changes without rewiring. All drivers on the link are controlled as a single zone. Provided with factory installed components only. Lutron Athena system provided by others.

VRF

Vive DFCSJ-OEM-RF integral fixture control with Radio Frequency (RF) communication. Vive provides intuitive programming allowing for maximum flexibility with wireless communication as desired. Provided with factory installed components only. Lutron system provided by others. Sensor must be used in conjunction with Pico Switch/Dimmer. Cannot be used in conjunction with mechanical on/off power switch. Contact factory for more information.

AWNRS

Athena wireless node with a sensor that enables simple, digital control of individual light fixtures in an Athena control system. Provides wireless control of the fixture and includes a passive infrared (PIR) sensor for occupancy and a daylight sensor. Enables individual wireless control of each fixture in an Athena control system. Accommodates zone and control changes without rewiring. All drivers on the link are controlled as a single zone. Provided with factory installed components only. Lutron Athena system provided by others.
