RB5

VERSATILITY IN EVERY BEAM

Introducing the RB5 Round High Bay — the most versatile, feature-rich solution in its class.

Engineered for performance, flexibility, and speed to market, the RB5 delivers unmatched configurability with lumen and CCT selectability standard, advanced control options, and a full suite of mounting and lens accessories. Backed by a deep catalog of diffusers, reflectors, and shielding options, RB5 simplifies ordering, accelerates installation, and empowers you to meet any spec with confidence.

FEATURES

- Offers fully customizable light output with built-in CCT selection (3500K, 4000K, 5000K) and a broad range of lens and reflector options — including frosted acrylic diffusers and aluminum reflectors — to match any visual or performance requirement.
- Enhance visual comfort with frosted lenses or frosted diffusers for glare reduction.
- Withstands harsh environments with IP65-rated, IK10 impact-resistant construction and durable powder coat finish.
- Ensures energy efficiency and compatibility with 0-10V dimming, universal voltage (120-277V), and high voltage options (277-480V).
- Simplifies installation with versatile mounting options, including hook, pendant, surface, and cable mounts.
- Provides reliable performance with advanced thermal management, surge protection, and Title 20-compliant emergency options.

COMPATIBLE WITH NUROAir PLUG-N-PLAY SENSOR

Optional center mounted field installable sensor (NUROAir by ILLUMUS Brands) provides a clean appearance and ensures a balanced plumb fixture. Sensor Plug & Plays via 3.5MM jack with advanced features such as tri-level dimming, grouping, scheduling, and daylight harvesting.
