Integrated NURO Sensor Options

Emergency Egress Options

Acrylic Diffuse Lens Options

KEY FEATURES

- Delivers uniform and precise lighting with five optical distributions for maximum coverage with optional diffuse lens to enhance visual comfort.
- Available in three sizes, delivering 1,000 to 24,000 lumens at up to 160 LPW for a scalable lighting solution that fits any application.
- Pairs with the matching Skyline Area and Flood Lights for a cohesive site lighting solution, ensuring a uniform look across any project.
- Patent-pending quick-mount bracket enables hands-free wiring and simplifies installation on standard junction boxes or vertical surfaces.
- Ensures long-lasting performance with an IP66-rated die-cast aluminum housing and UV-stabilized optics.
- Offers advanced control options with wireless integration, PIR occupancy sensors, and bi-level dimming capabilities.
- Integrated EM options in all 3 fixture sizes.

SENSOR COMPATIBLE

The Skyline Wall Pack luminaire is compatible with a variety of sensors and wireless controls.

- 120 - 277V or 347 - 480V
- L85 >100,000 hrs. per TM-21-19
- -40°C to 50°C Operating Temperature
- 0-10 Dimming Driver Standard
- IP66 Rated Luminaire
- BAA Compliant
- Dark Sky Compliant
- Ten Year Optional Warranty

CUSTOMIZE YOUR WALL PACK

SBB

Surface Back Box for external conduit power entry.

AWS

Architectural Wall Spacer creates a suspended, floating aesthetic for a modern, refined appearance.

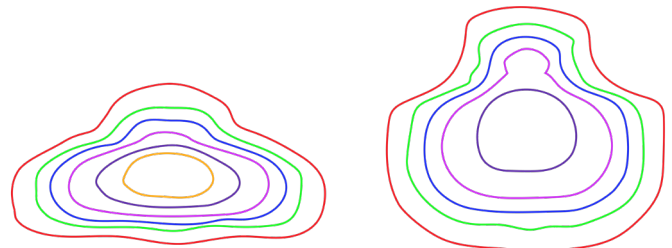

AD

Visually comfortable lens (AD) helps create a welcoming atmosphere at building entryways. The flat diffusing lens delivers low surface brightness while maintaining strong optical control.

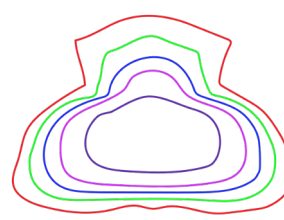

OPTIC PATTERNS

The Skyline Wall Pack luminaire boasts high-performance photometric distributions, providing superior site illumination in a variety of outdoor applications.
